The RCE request received 6/13/2003 has been entered, the amendment of 5/1/03 has not been entered, and the amendment of 4/14/03 has now been entered. A copy of the 1449 received 10/24/01 is enclosed and all the references have been considered. Please update the specification regarding the priority documents.

Claims 34-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Newly added claims 34 and 35 are directed to enzymes that are not chemically modified and a nonionic surfactant that does not solubilized the aggregated lipoproteins. These limitations are not found in the specification as originally filed. The amendment of 4/14/03 is silent concerning this rejection.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 5, 6, 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of the following applies in each and every occurrence. In claim 3 the claim from which it depends may not be intended to be in parentheses. In claim 5(II) line 1, "the amount" and "the hydrogen peroxide" lack antecedent basis.
